Pink Welding Machine Built To Support Breast Cancer Research Installed at Super Sign Mart

RUSTON, LA November 30, 2010 – Miller Weldmaster installation technician, Patrick Moore, installed the new Pink Machine at Super Sign Mart in November. Miller Weldmaster built the Pink T-300 Machine as a fund raising campaign to support the [Stefanie Spielman Fund](#) for Breast Cancer Research at The Ohio State University Comprehensive Cancer Center – Arthur G. James Cancer Hospital and Richard J. Solove Research Institute. An auction was held at the IFAI show in October with the high bid going to Todd Davis of Super Sign Mart.

“We’re excited to have been a part of this great cause” said Todd Davis of Super Sign Mart, “and the efficiency of the new machine will really speed up our finishing process.”

The installation and training was completed in one day and Super Sign Mart is in full production of signs and banners for its customers.

“It’s so great to have followed this machine, from its inception all the way to the installation” said Patrick Moore of Miller Weldmaster, “I’m proud to have been a part of this great cause.”
