

POWERFUL AWNING WELDER
FOR EFFICIENT PRODUCTION

Aerospace

Roller Doors

Green House

Pergolas

Geomembranes

TRIAD
Extreme HIGH SPEED

**Portable, Versatile
AND EFFICIENT**

The Triad Extreme™ hot wedge welding machine is ideal for your in-house fabrication needs. As either a stationary or self-propelled welder, the Triad Extreme provides hands-free, single person operation from a floor or table surface. It is efficient, versatile, quiet and easy to operate on a wide variety of coated and non-coated industrial textiles. From awnings or covers to tents or tarpaulins, the Triad Extreme has a model that will fit all your welding needs.

Applications:

- Aerospace
- Containment Booms
- Filtration
- Geomembranes/Liners
- Greenhouses
- Pools

TRIAD Extreme HIGH SPEED

ACTIVE SEAM TYPE RECIPES

TECHNICAL SPECIFICATIONS

Power Requirements:	230 Volts - Single Phase - 8.0 Amp.
Power Consumption:	Approx. 1.2kW
Maximum Temperature:	500°C (932°F)
Dimensions:	Width: 0.254m (10") Length: 0.508m (20") Height: 0.305m (12")
Weight:	25kg (55lb)
Seam Width:	10 - 50mm (0.5-2")
Welding Cycle:	Up to 65 ft/min*

* Depending on the application, the seam width and the type of material used

FEATURES & BENEFITS

1. High-speed design for high-speed production.
2. Excellent visibility of the welding area.
3. Swing-out wedge provides for easy cleaning.
4. Stationary or automatic travel on track for hands-free operation.

Package Includes:

- Triad Extreme High Speed
- Overlap Guide
- 1 Full Day Of Training & Installation

Add On's:

- 5 Foot Sections Of Track
